

> Bingo XL series semi-electric mini lifter

Multifunction mini lifter with manual drive and electric lifting. Available with load capacity of 300 kg up to 1700 mm and 150 kg from 1700 to 2500 mm. Fitted with two 12V 55Ah batteries that require no maintenance and a 24V 6A built-in charger. Painted steel or Aisi 304 stainless steel frame and mast and ABS cover. Fitted with a lifting cylinder and mini hydraulic control unit. Poly castor wheels with parking brakes and individual fixed poly rollers with the standard version, also available with front twin or castor wheels. It can be provided with different standard accessories (refer to the table regarding residual loads) or with equipment designed specifically according to the customer's requirements.
